Essential Features

Timer

End/Start but no Pause

Display only

Hide other tasks/list when currently running a pomo

Create new task

Delete task

Task Finished

Pomo: 25min

Short Break: 5 min

Long Break: 15min

"Log Distraction" button brings up a window to describe task

Nice to have

Blocks out browser notifications when timer is started

Lighter pallete for the colors so less harsh on eyes.

Counter for distractions

Indicator for a failed pomo

Customizable lengths for pomos/short breaks/long breaks

(Off of trevors #3) maybe no timer and just use a color indicator

Some sort of visual indicator the timer is still running

Extra features

Store past pomo data

Canvas style confetti when you finish
